

## Curriculum

The curricula of our schools shall be in harmony with the board's adopted goals.

Curriculum development by the professional staff shall be guided by such factors as:

1. Information concerning the needs of pupils in this school district.
2. Aspirations of residents of the school district for our pupils.
3. The mobility of our population, making it necessary to provide education for our pupils useful anywhere in the U.S.A.

The board favors providing opportunities for faculty to help in curriculum development through such devices as workshops, study groups, assistance from outside consultants, or other means as deemed necessary.
