

## Outside Resource People

The Board of Directors recognizes that the people of the community are one of the greatest resources of the school system, and that they have special knowledge and particular talents to contribute to the school program. The Board of Directors therefore encourages the use of community resources and citizens to assist in furthering the educational program. Use of outside personnel and resources shall be under regulations approved by the superintendent of schools as follows:

1. Outside resource people will give an indication of content to the teacher prior to the instruction.
2. The superintendent will be notified and approval given principals to invitations if the substance of their talk is of a controversial nature.

The classroom teacher shall request from the building principal permission for a visiting speaker (at least one-week) before the expected visit takes place. The one-week request may be waived by the principal in extenuating circumstances.
