

The focus of the school system is on the student. His/her educational development is the central concern of the board's policies and the administrator's regulations.

Each child shall be given equal opportunity. But since children vary widely in capacities, interests, social, and economic background, no two students can be treated exactly alike if the fullest development is to be achieved.

The board will attempt to overcome limitations of facilities and means that stand in the way of any who wish to learn.
