

### **School-Community Associations**

The board considers school-community associations such as parent/teacher groups, integral parts of the school community that can aid substantially in promoting a finer educational program.

Among the many services that such associations can offer, the board especially endorses any assistance that they can give in developing and maintaining a voluntary aid program in our schools.

The board encourages teachers and employee associations to actively support and cooperate with school-community associations.

### **Cooperation of School Personnel**

Representatives and members of school-community associations shall be treated by district employees as sincerely interested friends of the schools and as staunch supporters of public education in the district.

When staff members participate actively in school-community associations or programs, the board requests that they conduct themselves in such a way as to perpetuate the goals of that organization.
