

## **Military Recruitment**

The SAD #59 School Board recognizes the need for cooperation with representatives of the military services and school officials regarding students selecting the military as a career choice. It is the policy of the SAD #59 School Board to allow the military services the same opportunity in meeting with secondary school students as other prospective student employers such as college recruiters, and business/industry representatives. The procedures for the military to visit the secondary school are as follows:

### **General Policy**

1. Access to Students in the School Building During School Time:
  - a. Military recruiters may meet with students for the purpose of disseminating information and addressing the military as a career choice providing advance approval is given by the school and details of visitation are known by the school e.g., timing, students to be seen, etc.
2. Administration of Armed Services Vocational Aptitude Battery Test:
  - a. Military recruiters may administer the ASVAB Test in a group setting on school time through a prearranged schedule developed by the military and the guidance/principal's office.
  - b. Individual administrations of the ASVAB should be accomplished during a time when students are not scheduled for classes.
3. Release of Lists of Student's Names and Addresses:
  - a. The releasing of student names and addresses shall be governed by the Family Educational Rights and Privacy Act and are not to be released en masse to the military services, colleges, universities, business/industry, or other individuals and agencies. Release of this information may occur only with the student and parent/legal guardian approval.
