

School Closure Take-Home Packets

Dear Parents/Caregivers,

Please find in this packet educational activities that you can use to help maintain, engage, and foster a sense of “normalcy” during our school closure. We would like to keep our students mentally challenged as well as honor the importance of “routine” as we navigate through these challenging times.

These packets will have daily teacher directions for content/grade, materials to complete, and a daily log for your student to complete as they finish certain tasks. Please note that these activities require very little if any technology. Also the materials students have been assigned will be assessed to determine where students are once school has returned to session.

As we continue to build this remote learning experience, we anticipate sharing more resources in the future. Please check <https://www.sad59.k12.me.us> to get the latest information. Again, we want to provide students with a variety of possibilities to keep their learning going. We are grateful to all those who have helped develop these authentic learning experiences. Please feel free to contact your child’s teacher if you have any questions regarding the packet assignment.

Important: Please have students return packet work and log when appropriate.

Thank you and be safe!

A handwritten signature in blue ink that reads "Bonnie C. Levesque".
