

Wednesday, September 1, 2021

Dear Parent/Guardian(s):

As we kick off the start of this 2021-2022 school year, we are excited to announce a partnership between Madison Area Memorial High School and **Maine Behavioral Health Organization (MBHO)**. MBHO will be available weekly and able to provide a vast array of social emotional services including individual counseling, in classroom social emotional learning, social skills groups, family outreach, and overall support to students and families throughout the school year.

At Madison Area Memorial High School and MBHO, we believe that mental health and wellbeing is the basis for a happy and successful life at school and beyond. Wellbeing plays a key role in our school environment, and shapes our policies and procedures implicitly and explicitly. We strive to improve the wellbeing of our students and staff in everything we do, seeking to build resilience, identify and monitor concerns, and support students and families should challenges arise.

Our hope is that we will continue to develop meaningful relationships throughout the school year to help support your efforts at home. If there are any other questions related to these support services, please contact myself at the email provided, or your child's school directly to discuss further. We want to ensure continued healthy partnerships with our families, and appreciate your feedback!

Thank-you,

Amanda Clark, LCSW  
Maine Behavioral Health Organization  
Clinical Director of Children's Services
